Note :- The rationale for promulgating this Act is that the laws on the prevention, suppression and control of narcotics, including treatment and rehabilitation of drug addicts, are spread in the law. Many editions and operations To act in accordance with each law is the duty and authority. The power of many organizations makes the enforcement. The use of the law is inconsistent. In addition, the provisions of the law on certain drugs are inappropriate. with the current situation It is expedient to compile such laws to prepare to be used as a drug law code for the benefit To systematically reference and apply laws to be included in the same edition. At the same time, the provisions of in such law to be appropriate to the current situation. Control and Use of Drugs in Medicine scientific and industrial effective and focuses on preventing the spread of narcotics and the misuse of drugs that lead to drug addiction. which undermines the health of the people especially the spread Drugs enter the youth group, which is an important force in the development of the country, including establishing a committee system that consists of Engage various people from both the public and private sectors to take part in the consideration and formulation of policies in various matters related to the prevention, suppression and control of narcotics, including treatment. To treat and restore social conditions for drug addicts with due care and efficiency, it is necessary to enact this Act.
